---

Hi Dee Dee:

Currently there are two FOIAs in FOIAonline pertaining to Hurricane Harvey. I have provided a short description below.

[EPA-R6-2017-011046](#) - Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I request from EPA Region 6 any and all communications, which includes but is not limited to, emails, memos, letters, directives and text messages, between EPA officials and other government entities, including local and other federal agencies, regarding Hurricane Harvey and the Arkema chemical plant. I also request the same between EPA and Arkema officials. I am also requesting any and all EPA assessments of hazards at Arkema from January 1, 2015 to present.

[EPA-R6-2017-011050](#) - Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I request from EPA Region 6 any and all communications, which includes but is not limited to, emails, memos, letters, directives and text messages, between EPA officials and other government entities, including local and other federal agencies, regarding Hurricane Harvey and Superfund sites in Texas from the period August 24, 2017-Present. This also includes: -- assessment of hazardous facilities potentially affected by the hurricane - -assessment of small and large water systems affected by the hurricane.

I believe the FOIAs are straight forward. FOIA # EPA-R6-2017-011050 may require clarification as she is seeking communications of Hurricane Harvey and all Superfund sites in Texas but the time frame is from August 24, 2017 to August 31, 2017. Should the requester be required to identify all of the Superfund sites? Please let me know if I can assist.

Thank you,

*Tina Kirst*
